ORGANISMuseum features Andrzej Dragan **“Portraits 2004-2006”**

Post production as added value
to an amazing passion for portrait

Milano, April 6 2007

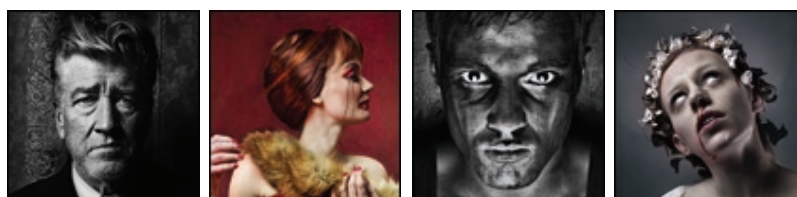

Since 6th April 2007 ORGANISMuseum, the first Online Realtime 3D Virtual Art Gallery running inside Internet Browsers, either PC or MAC, is proud to host Andrzej Dragan's photographs. All past exhibitions will remain accessible through the exhibitions archive present on the website.

“Portraits 2004-2006”

Andrzej imagines, shoots and then arms himself with the patience that only great artists have. Line after line, shadow after shadow he extracts from the image the soul of withdrawn people. There's a famous and surreal David Lynch, who finds himself as owner of a bird unable to fly, blocked in a gesture on a perfect balance between violence and love or there's a piano tuner who is the king of his own anonymity. Twenty two portraits to explore, sometime a little difficult to understand but surely able to be remembered.

You can find the gallery at this address:
